Information regarding the relationship between BC TEAL and TESL Canada

Background
BC TEAL was established in 1967 and is the oldest EAL professional association in Canada. BC TEAL has a provincial office and a regional representative program covering all regions of British Columbia. BC TEAL is governed by a volunteer board of directors and is engaged in a wide range of activities ranging from advocacy to professional development. BC TEAL is entirely member funded.

The TESL Canada Federation was established in 1984 by 5 founding provincial associations, including BC TEAL. TESL Canada has signed a Memorandum of Agreement (MOA) with some of the independent provincial associations. These MOAs have outlined the rights and responsibilities of each provincial association and of TESL Canada.

As a federation, TESL Canada holds or has held separate MOAs with the provincial associations. SPEAQ (Quebec) terminated its MOA a number of years ago. TESL Ontario is currently in the process of negotiating its MOA. BC TEAL, as a result of issues with the existing MOA, including legal concerns, gave notice to TESL Canada in December 2014 of its desire to negotiate a new MOA.

Under the terms of the Memorandum of Agreement, BC TEAL had full responsibility for collecting all membership fees for TESL Canada as well as maintaining and providing TESL Canada with member information. In 2014, BC TEAL remitted more than $15,000 to TESL Canada in membership fees as well as administered all memberships on TESL Canada’s behalf.

Legal Concerns
Following a review of the MOA, BC TEAL’s legal counsel noted significant flaws in the wording and terms of the MOA. As well, BC TEAL was advised that it should not provide TESL Canada with personal information about members without written consent, that the associations should have separate membership forms, and that membership fees for the two associations should be collected separately.

Financial Concerns
Under the MOA, BC TEAL had sole responsibility for all administrative costs related to collecting and remitting the TESL Canada membership fees and membership lists.

No Resolution
In December 2014, BC TEAL requested a meeting to negotiate a new MOA with TESL Canada. In March 2015, members of the BC TEAL board met with members of the TESL Canada board, and BC TEAL stated clearly that it would not renew the existing MOA, but was interested in finding a new way to work with TESL Canada.

Following consultation with members, BC TEAL shared a proposal for a new framework of cooperation with TESL Canada in July 2015. TESL Canada rejected the proposal (citing that they would not agree to anything other than joint membership) and TESL Canada did not share a counter proposal for the BC TEAL Board of Directors’ consideration.

As a result, there has been no resolution between the respective associations. Therefore, effective September 17, 2015, there is no formal relationship between BC TEAL and TESL Canada.

In Conclusion
BC TEAL will continue to serve its members and support the English language teaching profession provincially and remains open to considering proposals for cooperation between the respective associations.
Frequently Asked Questions

1. What is the relationship between BC TEAL and TESL Canada?
   Effective September 17, 2015, there is no formal relationship between BC TEAL and TESL Canada. Prior to this date, BC TEAL had a Memorandum of Agreement (MOA) which stipulated the rights and obligations of each organization. The most recently expired agreement was signed in 2012. Under this agreement, BC TEAL was responsible for administering a joint membership application process and for collecting TESL Canada fees from BC TEAL members.

2. Why did BC TEAL want to negotiate a new Memorandum of Agreement (MOA) with TESL Canada?
   Under the terms of the expired MOA, “either party must provide notice of at least three months of its interest in amending the Memorandum, including the proposed changes”.
